

### **Minutes from the annual meeting of the Editorial Board of »Geofizika«**

The meeting was held at the Andrija Mohorovičić Geophysical Institute, Zagreb, on 10 October 1991, with the following agenda:

1. Report on Vol. 7 (1990)
2. Financial report for the year 1990
3. Acceptance of manuscripts for Vol. 8 (1991)
4. Financial plan for the year 1991
5. A.O.B.

Due to the war-time circumstances only the members of the Editorial Board from Zagreb were invited.

Dr. M. Orlić opened the meeting and reported on the work done for publication of the last issue of »Geofizika«. The financial report was unanimously accepted as presented by A. Igrac.

D. Herak informed the Board of the current status of manuscripts submitted for publication in »Geofizika«. Vol. 8 (1991) will contain 10 papers that were after reviewing tentatively classified as 5 Original scientific papers, 2 Short communications, 2 Preliminary communications and 1 Professional paper. After examining the reviews the members of the Board approved of papers' classifications and formally accepted them for publication. In addition to the scientific part a number of Appendices will be published.

Dr. M. Orlić informed the Board of the present status in financing the publication of the journal. The Ministry of Science, Technology and Informatics of the Republic of Croatia will continue to subsidise the journal, and it is hoped that the funds will be adequate to cover the real costs of editing and publication.

The members of the Board discussed the possibility of merging »Geofizika« with the journal »Rasprave« published by the Croatian Meteorological Society. The conclusion was reached that both journals might benefit from it, and that Editorial Board of »Geofizika« in principle supports such an idea. The details are to be discussed on the meeting of members of both Editorial Boards that will be organized in near future.
