**Comment on »Highlights of the year of physics 2005
at the Department of Geophysics in Zagreb«
by Marko Pavić and Branko Grisogono**

Received May 29, 2008

Dear Editor,

From our paper »Highlights of the year of physics 2005 at the Department of Geophysics in Zagreb«, Vol. 24, 2, 2007, 145–148, one might conclude wrongly that the authors were responsible for restoring and renovating Mohorovičić memorial rooms. As this was not our attention and as we were not responsible for that part of World Year of Physics 2005 celebrations, we would like to acknowledge the role of the Department of Geophysics and especially all the staff that was involved in restoration of Mohorovičić legacy and offer our apologies for misunderstanding.

Yours sincerely,

Marko Pavić and Branko Grisogono
