

**Correction to “Wind measurements in Senj  
– underestimation of true bora flows”**

*Zvezdana Bencetić Klaić, Aleksandar D. Prodanov  
and Danijel Belušić*

In the paper “Wind measurements in Senj – underestimation of true bora flows” by Z. B. Klaić, A. D. Prodanov and D. Belušić (2009, *Geofizika*, 26, 245–252) the sentence starting at the third line, page 246 “They thus define the strongest bora region as that at the Adriatic coast, extending as far as 50–60 km inland.” should read as follows “They thus define the strongest bora region as that at the Adriatic coast, extending as far as 50–60 km offshore.”
